

Giant Connect Four – Game Rules

Object

The object of the game is to be the first to form a horizontal, vertical, or diagonal line of four of one's own discs while the opponent attempts to block you and do the same. The winner is the player that can achieve this first.

Setup

Players must simply build the game with the pieces provided in the bag. They must slide the board filled with circular holes into the two stand up brackets from the outside of the bag so that the game stands up. They must then slide the single wooden bar into the bottom of the assembled game to stop the discs from falling to the floor. This block may be removed to reset the game.

Playing the game

Each player chooses a colour and then takes turns dropping their coloured discs one at a time in the grid from the top.

The discs will stack on top of each other.

The first player that manages to stack four discs in a row either horizontally, vertically, or diagonally wins the game.
